

PCbuilds

WE
BUILD
FOR
#gamers

What We Do

PCbuilds was created to supply PC gamers with everything they need to get the best gaming experience for their budget.

We have the most flawless performance for only individual. If you ever need help with choosing the ideal combination for your gaming pc, our dedicated team is here to help you decide on the best option of both price and performance.

We build from scratch so no matter what PC you imagined buying - we will custom-build a PC for you!

If you love to game on PC, we would love to help you make it worthwhile. We pride ourselves on four main values: **Passion** > **Always Up To Date** > **Budget Minded** > and the usual "It's All About Gaming!"

Passion

PCbuilds is staffed by PC enthusiasts who live and breathe the latest gaming hardware, the only recommend products and components that we would ever use in our own build.

Always Up To Date

We check stock and pricing on everything from the latest GPUs to pre-built rigs every single day to make sure our recommendations are accurate and relevant.

Budget Minded

We do not just cater for the players who splash out on the latest cutting-edge components. We also come from a budget so we will always recommend the best gear for the smallest price.

It's All About Gaming

Other PC technology sites go off-track when it comes to coverage, but PCbuilds understands that its ultimately all about playing the greatest games at their best possible settings.

How to order?

Whether you need a perfect pre-built PC, want to build your own from scratch or just change a component or two, we will make your shopping experience easy and well thought out. By clicking the button **Order Now!** below you can choose our pre-built options. If we look dead but missing something you were aiming for, or maybe you have devised your own master plan for the ideal PC, we'll just contact you and we will follow up with you shortly and make sure your dream PC comes to life without breaking the bank.
